

Ezzy Wave: 40 Years of Wave Sailing Excellence

The Ezzy Wave, first conceived by sail designer David Ezzy in 1983, has been at the forefront of wave sailing performance for four decades. David's relentless pursuit of perfection, combined with rigorous testing, has resulted in a sail that is both lightweight and incredibly strong.

Built to Withstand the Ultimate Test

Hookipa, known for its massive waves, treacherous reef and gusty winds, is a proving ground for any wave sail. Lightweight yet incredibly strong, the Ezzy Wave delivers the perfect balance of power and control that allows you to push your limits with confidence.

What Sets the Ezzy Wave Apart

- Power and Stability: A reduced luff curve provides

exceptional forward drive and stability, allowing you to harness the smallest gust of wind to get planing.

- Intuitive Handling: Slightly pulled-back battens at the luff, enhance depowering and flipping, making for smooth transitions and effortless maneuvers.

- No Twitch: The smaller sizes feature an extended clew for increased stability during jumps and a more balanced overall feel.

- Bombproof Construction: Dyneema X-ply fabric delivers exceptional tear strength for unmatched durability and longevity.

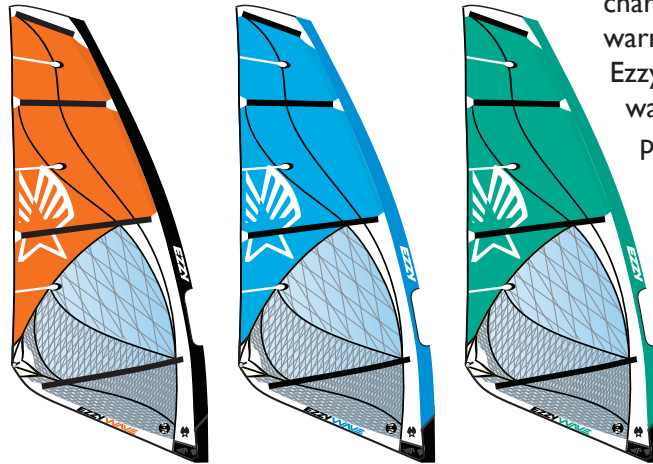

- Lightweight Performance: Stronger scrim yarns allow for the use of thinner film, reducing weight without compromising strength.

- Factory-Calibrated Precision: Every Ezzy Wave has the downhaul calibrated, so you know the exact downhaul setting.

- Made in Our Factory: Owning our own factory enables us to dedicate more time to each sail. We rig every sail we produce.

The Choice of Champions for 40 Years

Whether you're a seasoned wave rider charging massive swells or a weekend warrior enjoying your local break, the Ezzy Wave is designed to elevate your wave sailing experience. Its versatility, performance, and durability have made it a favorite among sailors of all levels for the past 40 years. Choose the Ezzy Wave and experience the difference for yourself.

Size m ²	Luff Min	Luff Max	Boom Min	Boom Max	Ezzy Mast Base/Top	Number of Battens	Weight (Kg)
2.8	325	329	127	137	315 / 340	4	2.30
3.0	338	342	133	143	315 / 340	4	2.39
3.4	351	355	139	149	340 / 340	4	2.50
3.7	364	368	145	155	340 / 340	4	2.61
4.0	372	376	145	155	340 / 370	4	2.74
4.2	380	384	145	155	370 / 370	4	2.83
4.5	389	393	150	160	370 / 370	4	2.89
4.7	397	401	154	164	370 / 400	4	2.93
5.0	407	411	159	169	370 / 400	4	3.04
